Committee against Torture

List of issues prior to submission of the seventh periodic report of Poland*

The Committee against Torture, at its thirty-eighth session (A/62/44, paras. 23 and 24), established an optional procedure which consists in the preparation and adoption of a list of issues to be transmitted to the State party concerned prior to the submission of its periodic report. The replies of the State party to this list of issues will constitute its report under article 19 of the Convention.

Specific information on the implementation of articles 1-16 of the Convention, including with regard to the Committee's previous recommendations

Articles 1 and 4

1. With reference to the Committee's previous concluding observations (see CAT/C/POL/CO/5-6, para. 7),¹ please provide detailed information on the measures taken to adopt a definition of torture in domestic penal law consistent with article 1 of the Convention. Please indicate the measures adopted by the State party to include torture as a separate and specific crime in its legislation and to ensure that such crimes are punished with appropriate sentences, which take into account their seriousness, in accordance with the provisions of the Convention.

Article 2²

2. In the light of the Committee's previous concluding observations (para. 8) and the State party's follow-up replies,³ please provide information on the steps taken and

* Adopted by the Committee at its fifty-sixth session (9 November-9 December 2015).

¹ Unless otherwise indicated, paragraph numbers in parentheses refer to the previous concluding observations adopted by the Committee.

² The issues raised under article 2 could also touch on issues raised under other articles of the Convention, including article 16. As stated in paragraph 3 of the Committee's general comment No. 2 (2007) on the implementation of article 2 by States parties, the obligation to prevent torture in article 2 is wide-ranging. The obligations to prevent torture and other cruel, inhuman or degrading treatment or punishment under article 16 (1), are indivisible, interdependent and interrelated. The obligation to prevent such ill-treatment in practice overlaps with and is largely congruent with the obligation to prevent torture. In practice, the definitional threshold between ill-treatment and torture is often not clear. See also chapter V of the same general comment.

(b) The right to be informed of the reasons for arrest and of the charges against them, and the right to inform a family member of their arrest within a short period of time following their apprehension.

3. In its follow-up replies, the State party confirmed the need for a comprehensive solution for ensuring legal assistance for the most disadvantaged.⁵ Has the State party developed such a system of free legal aid?

4. Further to the Committee's previous concluding observations (para. 16), please provide information on the material, human and budgetary resources allocated for the effective functioning of the Human Rights Defender and on any additional resources granted to that institution to carry out its mandate as the national preventive mechanism under the Optional Protocol to the Convention.
